

RSL Professional Diploma Level 4 Repertoire Approval and Permission Statement.

This form is designed to help you to submit appropriate repertoire for the following RSL Level 4 Diploma units:

You may select repertoire from the published indicative repertoire list or use this to help you understand the technical requirements.

Once you have selected your repertoire you will need to submit it to RSL for approval by sending this form as a word document to info@rslawards.com.cn

You must submit complete programmes and may send in only one complete programme for approval at any time.

Please only submit repertoire which you are planning to perform and fits within the stipulated timings.

If the proposed repertoire is agreed, RSL will return this form in a signed format to act as a permission statement, which will remain valid for six months.

You should submit this permission statement along with the evidence material for the unit within this timescale.

If the proposed repertoire is not agreed, RSL will contact you by email. The piece(s) should be changed as necessary, and you must re-submit the whole programme (or replace the whole programme with pieces from the relevant repertoire list). We are unable to consider approval of individual pieces.

In approving programme proposals, we do not consider either timing or balance of style. The approvals of pieces and subsequent permission statement are given simply in terms of technical and musical difficulty.

It is the learner's responsibility to design an appropriate and balanced programme that complies with the stipulated timings.
